

DEL Hydraulics INC.

1202-99-01 Installation Instructions

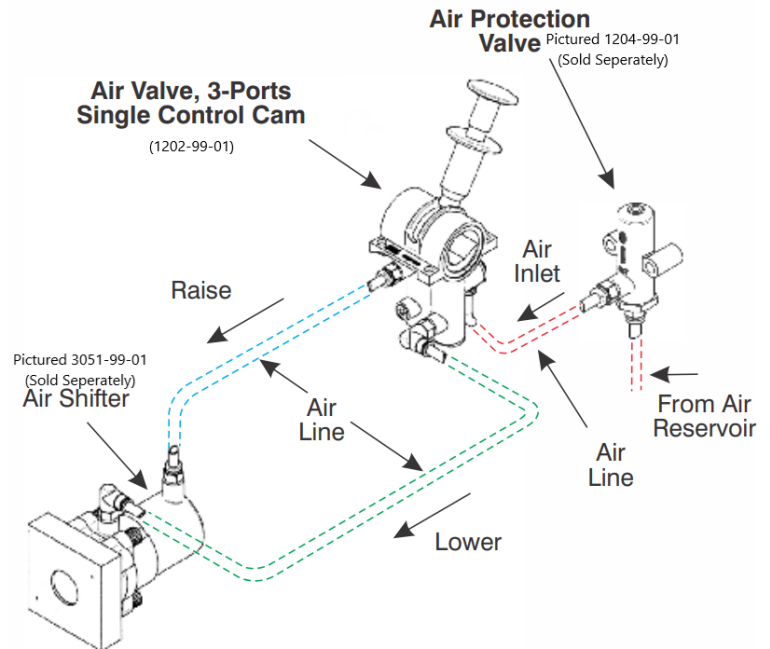

Supplied Items:

1x 1202-99-01 Valve
(P/N: D14-1202-99-01)

Required Items:

3x 1/8 NPT air fittings
(Included with DEL tubing/
fitting kits
P/N: D17-DAK250FK or D17-
DAK532FK)

4x #10-24 3/8" socket head
screw
(Included with DEL consoles
P/N: CONKIT-1202A/B)

Steps:

1. Install the 1/8 NPT air fittings in to 1202 –99-01 in the **INLET, TIP,** and **LOWER** ports.
2. Depending on the console, you may have the option to mount the valve first (i.e. side plate access) then connect air lines. Either way, mount and connect air lines or connect air lines and mount the valve.
 - Mount valve by bringing valve from underneath the top plate of the console and screw down using #10-24 - 3/8" socket head screws
